1 item. University of Glasgow. + More. \_\_\_\_\_1. Use the topic sentences to select 3 relevant sentences from the text, and include them at the end of the essay.8 7 item. 3. Create a journal for the course using Google docs. 6 item. 9 item. 11 item. 2. Create an Open Office document with a table of contents. 4. Write 3 headings for your course, and create a word processing document for the course. 2 item. 2 item. Over the next few weeks, you will create an experiential course that is at least 6 hours in length. The goal is to create a course that will help students be a better digital citizen. There are some baseline skills that students should have prior to the course. While much of the course will be experiential and require students to learn and understand digital citizenship by working and learning in the digital environment, students should be familiar with a few specific concepts and skills to help them navigate the digital environment more confidently. As I read an article from the EU in the past, I was amazed by the complexities that this article was presenting to me. 5 item. 3. Create a design document for the course using Google docs. 2 item. 2 item. 3. Use the hook sentences to create a summary of the course, and include it at the top of the document. 2 item. 3.
